find a specification chart on the product, a link to a picture and sometimes a brochure. (all brochures can be found on our data library)

- Link to e-catalogue and data library
- Brochure Links – an area has been set up on the website linking all of the Canadian products to their respective brochure(s).

- **DATA LIBRARY:**
 - TOA's data library is a corporate website that provides all the product details you will need for our entire product line up. You will find specification pages, drawings, manuals, brochures, and software here

- **INSTALLATIONS:**
 - TOA has put together a grouping of TOA specific installations. They are categorized into Sports Complexes, Houses of Worship, Education, Hospitality and Retail, Government and Hospitals, Corporate and Commercial, Transportation, Halls and Theatres, Voice Evacuation and Mass Notification, Security
 - You can also find a link to our Installation Highlights PDF
 - TOA Canadian Installation Profile (PDF)
 - International Installations (which takes you to our head office website in Japan)
 - This section is heavily reviewed and downloaded each month on our current website. Many people rely on our installations. We are always accepting new TOA product installations to add to our Resume. Please contact me with your installation at any time.

- **NEWS:**
 - TOA publishes all of our company press and product releases here. Please check here regularly to find out what is new at TOA.
 - You will find information on TOA's training and upcoming events
 - New to our website is a Technical Support Documents section. Here you will find links to product software, articles written by our technical support department, TOA Product Knowledge, etc.
 - Brochure section for all of our Canadian product offerings.
