

SYSTEM COMPONENTS

WT-4800

TRUE DIVERSITY RECEIVER

- 64 Channel, Frequency Agile
- On-Board Scanner
- True Diversity Reception
- Two Detachable Antennas
- Carrier, Noise and Tone-Key Squelch
- Antenna Loop Outputs
- RF and AF Meters
- XLR-M and Phone Jack Outputs
- Mic/Line Switch
- Optional Rack-Mount Kits available:
(Model MB-WT1) Mounts one or two Receivers
(Model MB-WT2) Mounts two Receivers

WM-4200

HANDHELD MICROPHONE

Designed for both speech and singing/vocal performance

- Dynamic Mic Element
- Low Handling Noise
- Low Battery Indicator

WM-4300

LAPEL MICROPHONE

- Electret Condenser Mic Element
- Low Battery Indicator
- Mini-XLR (TA-4F Compatible) Connector

OPTIONAL ACCESSORIES

WD-4800

ANTENNA DISTRIBUTOR

Antenna and power distribution for up to four WT-4800 receivers

- Four Paralleled Antenna Inputs and Eight antenna outputs, BNC-Type
- For use with WT-4800 Whip Antennas or YW-4500 Remote Antennas
- Optional Rack-Mount Kit available (Model MB-15B)

YW-4500

REMOTE ANTENNA

Dipole antenna designed for permanent installation

- Provides 8 dB Gain
- For use with WT-4800 or WD4800

COMPLETE SYSTEMS

- PASSWORD-H** Handheld Mic, Receiver and Rack-Mount Kit
- PASSWORD-L** Lapel Mic, Bodypack Receiver and Rack-Mount Kit
- PASSWORD-HL** Handheld/Lapel Combo, Receiver and Rack-Mount Kit*

NOTE: The WT-4800 and WT-4810 receivers are both designed to be compatible with any Password or Scout Series microphone

SYSTEM COMPONENTS

WT-4810

TRUE DIVERSITY RECEIVER

- 16 Channel, Frequency Agile
- True Diversity Reception
- Two Built-In Antennas
- Carrier and Noise Squelch
- XLR-M and Phone Jack Outputs
- Mic/Line Switch

WM-4210

HANDHELD MICROPHONE

Optimized for singing and vocal performance

- Dynamic Mic Element
- Low Handling Noise
- Low Battery Indicator

WM-4220

HANDHELD MICROPHONE

Optimized for public speaking/spoken word

- Electret Condenser Mic Element
- Low Handling Noise
- Low Battery Indicator

WM-4310

LAPEL MICROPHONE

- Electret Condenser Mic Element
- Low Battery Indicator
- Locking Connector

WM-4310A

AEROBICS HEADSET MICROPHONE

Optimized for aerobics instructors and other active presenters

- Comfortable and Lightweight
- Moisture-Resistant Electret Condenser Mic Element
- Detachable Windscreen
- Low Battery Indicator
- Locking Connector

WM-4310H

SPEECH HEADSET MICROPHONE

- Comfortable and Lightweight
- Electret Condenser Mic Element
- Detachable Windscreen
- Low Battery Indicator
- Locking Connector

COMPLETE SYSTEMS

- SCOUT-HV** Handheld Mic (Vocal) and Receiver
- SCOUT-HS** Handheld Mic (Speech) and Receiver
- SCOUT-L** Lapel Mic, Bodypack and Receiver
- SCOUT-AH** Aerobics Headset Mic, Bodypack and Receiver
- SCOUT-SH** Speech Headset Mic, Bodypack and Receiver
- SCOUT-HVL** Handheld (Vocal)/Lapel Combo and One Receiver*
- SCOUT-HSL** Handheld (Speech)/Lapel Combo and One Receiver*

*Each receiver supports one microphone transmitter at a time.

WHEN IT COMES TO WIRELESS MICROPHONES, NO ONE DELIVERS MORE FOR YOUR MONEY THAN TOA.

LOOKING FOR PERFORMANCE? You've found it! Our *Password® Series* wireless microphone systems offer 64 user-selectable channels, an on-board scanner, plus carrier, noise and tone-key squelch to ensure quiet, interference-free operation.

Other Password features include Antenna Loop outputs and a Mix-In Jack, plus an optional remote antenna, an antenna distributor, and rack-mount kits.

SCOUT SERIES —
Portable, 16 channel systems with a variety of microphone options making it easy to configure a system to meet your needs.

LEGENDARY RELIABILITY

Ask anyone in the industry. They'll tell you that when it comes to reliability, TOA systems are absolutely unmatched. Look inside and you'll see why. Engineered tough, they're assembled using the highest quality components. Then they're tested and retested to ensure a failure rate that's virtually zero. Want a system you can trust? Go with TOA.

PASSWORD AND SCOUT FEATURES AT A GLANCE

- Fast, easy setup. Simple operation. Reliable performance.
- Frequency-agility:
 - Password: 64 UHF channels with on-board scanner
 - Scout: 16 UHF channels
- Channels are user-selectable, operating in the 692-722 MHz UHF band
- Up to sixteen simultaneous systems
- True Diversity Reception
- Handheld, lapel, and headset microphone options, for both speech and vocal performance
- Up to ten hours of continuous operation from one 9 V battery
- FCC and UL listed
- Two year warranty

The Password receiver features an on-board scanner and an LCD for RF and AF metering, as well as frequency setting.

Ideal for theaters, boardrooms, meeting halls and houses of worship, Password's bulletproof reliability also makes it a logical choice for the demanding A/V rental market.

Looking for value? With 16 user-selectable channels, a variety of microphone options and plug-and-play simplicity, our *Scout® Series* systems are ideal for fitness clubs, community centers,

hotels, schools and others needing an easily affordable system.

Both the Password and Scout systems are easy to set up and operate. Both are frequency agile. And both feature TOA's *True Diversity Reception* for unparalleled audio performance.

Check the features. Check the price. Then compare. You'll find that no other systems come close to matching the value TOA delivers in the Password and Scout.

PASSWORD SERIES —
High performance, 64 channel frequency-agile systems with on-board scanner
